### 1. Background and Basis of Presentation:

### Description of Business

Ecovyst Inc. and subsidiaries (the "Company" or "Ecovyst") is a leading integrated and innovative global provider of specialty catalysts and services. The Company supports customers globally through its strategically located network of manufacturing facilities. The Company believes that its products, which are predominantly inorganic, and services contribute to improving the sustainability of the environment.

On December 14, 2020, the Company completed the sale of its Performance Materials business for \$650,000, and the financial results of this business were presented as discontinued operations in the condensed consolidated financial statements.

On August 1, 2021, the Company completed the sale of its Performance Chemicals business, and the financial results of this business are presented as discontinued operations in the condensed consolidated financial statements for the 2021 period presented. See Note 3 for more information on the transaction.

The Company has two uniquely positioned specialty businesses: Ecoservices provides sulfuric acid recycling to the North American refining industry for the production of alkylate and provides on-purpose virgin sulfuric acid for water treatment, mining and industrial applications; and Catalyst Technologies provides finished silica catalysts and catalyst supports necessary to produce high strength and high stiffness plastics and, through the Zeolyst Joint Venture, supplies zeolites used for catalysts that remove nitrogen oxides from diesel engine emissions as well as sulfur from fuels during the refining process.

The Company's regeneration services product group, which is a part of the Company's Ecoservices segment, typically experiences seasonal fluctuations as a result of higher demand for gasoline products in the summer months and lower demand in the winter months. These demand fluctuations result in higher sales and working capital requirements in the second and third quarters.

The notes to the condensed consolidated financial statements, unless otherwise indicated, are on a continuing operations basis.

#### **Basis of Presentation**

The condensed consolidated financial statements included herein are unaudited. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") have been condensed or omitted pursuant to such rules and regulations for interim reporting. In the opinion of management, all adjustments of a normal and recurring nature necessary to state fairly the financial position and results of operations have been included. The results of operations are not necessarily indicative of the expected results for the full year. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2021.

### 2. New Accounting Standards:

### Recently Adopted Accounting Standards

In November 2021, the FASB issued guidance that requires entities to provide certain disclosures when they (1) have received government assistance and (2) use a grant or contribution accounting model by analogy to other accounting guidance. Previously, there was no guidance under GAAP on recognizing or measuring government grants to business entities. The new guidance does not provide any additional guidance on this topic; rather, it only provides guidance on required disclosures for business entities that receive government assistance and apply another grant or contribution accounting framework by analogy. The new guidance is effective for fiscal years beginning after December 15, 2021 with the new disclosures required on an annual basis, and can be applied either prospectively or retrospectively. The Company adopted the new guidance on January 1, 2022 and will include the disclosures as required in its annual reporting with respect to any government assistance or grants subject to the scope of the guidance to the extent material.

(Dollars in thousands, except share and per share amounts)
(unaudited)

### Accounting Standards Not Yet Adopted

In October 2021, the FASB issued guidance that requires contract assets and contract liabilities acquired in a business combination to be recognized and measured by the acquirer on the acquisition date in accordance with revenue recognition guidance. Under current GAAP, contract assets and contract liabilities acquired in a business combination are recorded by the acquirer at fair value. The new guidance creates an exception to the general recognition and measurement principles related to business combinations, and is expected to result in the acquirer recognizing contract assets and liabilities at the same amounts recorded by the acquiree. The new guidance is effective for business combinations occurring during fiscal years beginning after December 15, 2022, including interim periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the impact of the new guidance, which would only be applied prospectively to business combinations upon the adoption of the guidance.

In March 2020 and January 2021, the FASB issued guidance to address certain accounting consequences from the anticipated transition from the use of the London Interbank Offered Rate ("LIBOR") and other interbank offered rates to alternative reference rates. The new guidance contains practical expedients for reference rate reform related activities that impact debt, leases, derivatives and other contracts. The guidance is optional and may be elected over time as reference rate reform activities occur. During the year ended December 31, 2020, the Company elected to apply the hedge accounting expedients related to probability and the assessments of effectiveness for future LIBOR-indexed cash flows to assume that the index upon which future hedged transactions will be based matches the index of the corresponding derivatives. Application of these expedients preserves the presentation of derivatives consistent with past presentation. During the year ended December 31, 2021, the FASB extended the guidance adoption date to June 30, 2023. The Company continues to evaluate the impact of the guidance and may apply other elections as applicable as additional changes in the market occur.

#### 3. Divestitures:

### Performance Materials Divestiture

Upon the close of the transaction on December 14, 2020, the Company entered into a Transition Services Agreement with the buyer pursuant to which the buyer received certain services to provide for the orderly transition of various functions and processes after the closing of the transaction. The services under the Transition Services Agreement included information technology, accounting, tax, financial services, human resources, facilities, and other administrative support services. These services were provided for a period of nine months, with three 30-day extensions available. The Company billed \$1,571 under the Transition Services Agreement to the buyer during the three months ended March 31, 2021. Those billings were included in selling, general and administrative expenses on the condensed consolidated financial statements for the three months ended March 31, 2021.

During the three months ended March 31, 2021, the Company incurred transaction costs of \$1,446 and stock-based compensation expense of \$653, and an associated tax benefit of \$514 related to the Performance Materials divestiture which is included in loss from discontinued operations, net of tax.

### Performance Chemicals Divestiture

On February 28, 2021, the Company entered into a definitive agreement to sell its Performance Chemicals business to Sparta Aggregator L.P. (the "Buyer"), a partnership established by Koch Minerals & Trading, LLC and Cerberus Capital Management, L.P., for \$1,100,000, subject to certain adjustments including indebtedness, cash, working capital and transaction expenses. The Company completed the sale of the Performance Chemicals business on August 1, 2021. During the year ended December 31, 2021, the net cash proceeds to the Company from the sale were \$978,449 after certain customary adjustments for indebtedness, working capital and cash at the closing of the transaction. During the three months ended March 31, 2022, the Company made a payment to the buyer for \$3,744, representing the final adjustments to the sale price. The Company classified the payment within net cash used in investing activities – continuing operations in the condensed consolidated statements of cash flows.

Prior to the close of the transaction, the disposal group was tested for recoverability at each of the balance sheet dates subsequent to meeting the discontinued operations criteria, and the Company recognized an estimated disposal loss of \$95,594 during the three months ended March 31, 2021 which was included in net loss from discontinued operations, net of tax on the condensed consolidated statement of income.

(Dollars in thousands, except share and per share amounts) (unaudited)

The following table summarizes the results of discontinued operations related to the Performance Chemicals business for the three months ended March 31, 2021:

	e months ended arch 31, 2021
Sales	\$ 164,523
Cost of goods sold	125,853
Selling, general and administrative expenses	11,716
Other operating expense, net	17,480
Goodwill impairment charge	95,594
Operating loss	(86,120)
Equity in net (income) from affiliated companies	(38)
Interest expense, net (1)	3,215
Other income, net	(5,523)
Loss from discontinued operations before income tax	(83,774)
Provision for income taxes	4,411
Loss from discontinued operations, net of tax	\$ (88,185)

<sup>(1)</sup> Upon the close of the transaction, the Company used a portion of the net proceeds to repay a portion of its outstanding debt amounting to \$526,363. Prior to the Company's debt refinancing in June 2021, the Company's outstanding term loan facilities had mandatory repayment provisions. As a result, interest expense has been allocated to discontinued operations on the basis of the Company's total repayment of \$526,363.

Net income attributable to the noncontrolling interest related to the Performance Chemicals business, net of tax was \$117 for the three months ended March 31, 2021. Net loss attributable to Ecovyst Inc., related to the Performance Chemicals business, net of tax was \$88,302 for the three months ended March 31, 2021.

(Dollars in thousands, except share and per share amounts) (unaudited)

### 4. Revenue from Contracts with Customers:

### Disaggregated Revenue

The Company's primary means of disaggregating revenues is by reportable segments, which can be found in Note 18 to these condensed consolidated financial statements.

The Company's portfolio of products is integrated into a variety of end uses, which are described in the table below.

Key End Uses	Key Products
Industrial & process chemicals	Sulfur derivatives for industrial production
	Treatment services
Fuels & emission control	Refining hydrocracking catalysts
	Emission control catalysts
	Catalyst recycling regeneration services
Packaging & engineered plastics	Catalysts for high-density polyethylene and chemicals syntheses
	Antiblocks for film packaging
	Sulfur derivatives for nylon production
Natural resources	Sulfur derivatives for mining

The following tables disaggregate the Company's sales, by segment and end use, for the three months ended March 31, 2022 and 2021:

	 Three months ended March 31, 2022						
	Ecoservices	Catalys	t Technologies		Total		
Industrial & process chemicals	\$ 32,854	\$		\$	32,854		
Fuels & emission control <sup>(1)</sup>	71,658		_		71,658		
Packaging & engineered plastics	24,479		25,654		50,133		
Natural resources	25,069		_		25,069		
Total segment sales	\$ 154,060	\$	25,654	\$	179,714		

	Three months ended March 31, 2021					
	F	Coservices	Cataly	st Technologies		Total
Industrial & process chemicals	\$	16,947	\$	_	\$	16,947
Fuels & emission control <sup>(1)</sup>		55,192		_		55,192
Packaging & engineered plastics		10,622		26,402		37,024
Natural resources		17,461				17,461
Total segment sales	\$	100,222	\$	26,402	\$	126,624

As described in Note 1, the Company experiences seasonal sales fluctuations to customers in the fuels & emission control end use.

### 5. Fair Value Measurements:

Fair values are based on quoted market prices when available. When market prices are not available, fair values are generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality. In instances where there is little or no market activity for the same or similar instruments, the Company estimates fair values using methods, models and assumptions that management believes a hypothetical market participant would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment that

(Dollars in thousands, except share and per share amounts) (unaudited)

becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used.

The Company's financial assets and liabilities carried at fair value have been classified based upon a fair value hierarchy. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). The classification of an asset or a liability is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

- Level 1—Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date. Active markets provide
  pricing data for trades occurring at least weekly and include exchanges and dealer markets.
- Level 2—Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or
  other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities,
  spreads and yield curves.
- Level 3—Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The following table presents information about the Company's assets and liabilities that were measured at fair value on a recurring basis as of March 31, 2022 and December 31, 2021, and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value.

		March 31, 2022		Quoted Prices in Active Markets (Level 1)		Significant Other Observable Inputs (Level 2)		Observable Inputs		gnificant ervable Inputs (Level 3)
Derivative assets:										
Interest rate caps (Note 14)	\$	18,151	\$	_	\$	18,151	\$	_		
Derivative liabilities:										
Interest rate caps (Note 14)	\$	304	\$	_	\$	304	\$	_		
				Quoted Prices in Active Markets (Level 1)		Significant Other Observable Inputs (Level 2)		gnificant		
		December 31, 2021		Active Markets (Level 1)	Ob	servable Inputs		ervable Inputs Level 3)		
Derivative assets:	_				Ob	servable Inputs				
Derivative assets:  Interest rate caps (Note 14)	\$		\$		Оь	servable Inputs				
	\$	2021	\$	(Level 1)		servable Inputs (Level 2)				

### Derivative contracts

Derivative assets and liabilities can be exchange-traded or traded over-the-counter ("OTC"). The Company generally values exchange-traded derivatives using models that calibrate to market transactions and eliminate timing differences between the closing price of the exchange-traded derivatives and their underlying instruments. OTC derivatives are valued using market transactions and other market evidence whenever possible, including market-based inputs to models, model calibration to market transactions, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. When models are used, the selection of a particular model to value an OTC derivative depends on the contractual terms of, and specific risks inherent in, the instrument as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, forward curves, measures of volatility, and correlations of such inputs. For OTC derivatives that trade in liquid markets, such as forward contracts, swaps and options, model inputs can generally be corroborated by observable market data by correlation or other means, and model selection does not involve significant management judgment.

(Dollars in thousands, except share and per share amounts) (unaudited)

As of March 31, 2022, the Company had interest rate caps that were fair valued using Level 2 inputs. In addition, the Company applies a credit valuation adjustment to reflect credit risk which is calculated based on credit default swaps. To the extent that the Company's net exposure under a specific master agreement is an asset, the Company utilizes the counterparty's default swap rate. If the net exposure under a specific master agreement is a liability, the Company utilizes a default swap rate comparable to Ecovyst. The credit valuation adjustment is added to the discounted fair value to reflect the exit price that a market participant would be willing to receive to assume the Company's liabilities or that a market participant would be willing to pay for the Company's assets.

### 6. Stockholders' Equity:

### Accumulated Other Comprehensive Income (Loss)

The following tables present the tax effects of each component of other comprehensive income (loss) for the three months ended March 31, 2022 and 2021:

	Three months ended March 31,																									
		2022 2021																								
		Pre-tax amount		ax benefit/ expense)		After-tax amount		Pre-tax amount																x benefit/ expense)	-	After-tax amount
Defined benefit and other postretirement plans:																										
Amortization of net gains	\$	1	\$	_	\$	1	\$	1	\$	_	\$	1														
Amortization of prior service cost		(53)		13		(40)		(58)		14		(44)														
Benefit plans, net		(52)		13		(39)		(57)		14		(43)														
Net gain from hedging activities		18,296		(4,574)		13,722		1,020		(255)		765														
Foreign currency translation <sup>(1)</sup>		(2,305)		_		(2,305)		(6,308)		2,447		(3,861)														
Other comprehensive income (loss)	\$	15,939	\$	(4,561)	\$	11,378	\$	(5,345)	\$	2,206	\$	(3,139)														

The income tax benefit or expense included in other comprehensive income is attributed to the portion of foreign currency translation associated with the Company's cross-currency interest rate swaps for the three months ended March 31, 2021, for which the tax effect is based on the applicable U.S. deferred income tax rate. See Note 14 to these condensed consolidated financial statements for information regarding the Company's cross-currency interest rate swaps, which were settled in March 2021.

The following table presents the changes in accumulated other comprehensive income (loss), net of tax, by component for the three months ended March 31, 2022 and 2021:

	a	ined benefit nd other tretirement plans	et gain (loss) om hedging activities	Foreign currency translation	Total

<sup>(2)</sup> These accumulated other comprehensive income (loss) components are components of net periodic pension and other postretirement cost (see Note 16 to these condensed consolidated financial statements for additional details).

(Dollars in thousands, except share and per share amounts)
(unaudited)

### Treasury Stock Repurchases

The Company records repurchases of its common stock for treasury at cost. Upon the reissuance of the Company's common stock from treasury, differences between the proceeds from reissuance and the average cost of the treasury stock are credited or charged to capital in excess of par value to the extent of prior credits related to the reissuance of treasury stock. If no such credits exist, the differences are charged to retained earnings.

2020 Stock Repurchase Program

On March 12, 2020, the Company's Board of Directors (the "Board") approved a plan to purchase up to \$50,000 of Ecovyst Inc. common stock under a stock repurchase program approved by the Board. Under the plan, the Company could repurchase shares from time to time for cash in open market transactions or in privately negotiated transactions in accordance with applicable federal securities laws. The Company determined the timing and the amount of any repurchases based on its evaluation of market conditions, share price and other factors. The stock repurchase program expired in March 2022, with no repurchases made during the three months ended March 31, 2022 and 2021.

2022 Stock Repurchase Program

On April 27, 2022, the Board approved a plan to purchase up to \$450,000 of Ecovyst Inc. common stock over the next four years under a stock repurchase program. Under the plan, the Company can repurchase shares from time to time for cash in open market transactions or in privately negotiated transactions in accordance with applicable federal securities laws. The Company will determine the timing and the amount of any repurchases based on its evaluation of market conditions, share price and other factors. No repurchases have been made under the repurchase program since the announcement date of the program.

Tax Withholdings on Equity Award Vesting

In connection with the vesting of restricted stock awards, restricted stock units and performance stock units, shares of common stock may be delivered to the Company by employees to satisfy withholding tax obligations at the instruction of the employee award holders. These transactions when they occur are accounted for as stock repurchases by the Company, with the shares returned to treasury stock at a cost representing the payment by the Company of the tax obligations on behalf of the employees in lieu of shares for the vesting unit. The fair value of the shares withheld to cover tax payments were \$332 and \$1,470 for the three months ended March 31, 2022 and 2021, respectively.

### 7. Acquisition:

On March 1, 2021 (the "Closing Date"), the Company completed the acquisition of Chem32, LLC ("Chem32") as part of a stock transaction (the "Acquisition") for \$44,000 in cash. Based in Orange, Texas, Chem32 is a leader in ex situ pre-sulfiding and pre-activation for hydro-processing catalysts. The net cash paid on the Closing Date by the Company was \$41,994, after certain customary adjustments for indebtedness, working capital, cash and a holdback amount pursuant to the agreement. A portion of the holdback was settled in July 2021 for a payment of \$645, with \$1,000 of the holdback remaining as of March 31, 2022.

Chem32 is reported as part of the Ecoservices segment. The Company believes that the Acquisition enables it to offer a more robust portfolio of services within the refining industry leveraging the Company's existing relationships, therefore contributing to a total purchase price that resulted in the recognition of \$14,778 of goodwill, which was deductible for tax purposes. During the three months ended March 31, 2022, the Company recorded an immaterial adjustment between goodwill and deferred tax liabilities related to the final tax purchase price allocation. See Note 8 to these condensed consolidated financial statements for further information.

(Dollars in thousands, except share and per share amounts) (unaudited)

The following table sets forth the calculation of the purchase price to the identifiable net assets acquired with respect to the Acquisition, which was complete as of December 31, 2021:

	Purchase Price Allocation		
Cash paid, net of cash acquired	\$ 42,639		
Holdback	 1,000		
Total consideration, net of cash acquired	\$ 43,639		
Recognized amounts of identifiable assets acquired and liabilities assumed:			
Receivables	\$ 1,368		
Inventories	204		
Prepaid and other current assets	351		
Property, plant and equipment	5,046		
Other intangible assets	22,100		
Other long-term assets	 187		
Fair value of assets acquired	29,256		
Accounts payable	207		
Accrued liabilities	188		
Fair value of net identifiable assets acquired	28,861		
Goodwill	 14,778		
	\$ 43,639		

In accordance with the requirements of the purchase method of accounting for acquisitions, accounts receivable and inventories were recorded at fair market value. As of the Closing Date, the fair value of accounts receivable approximated historical cost. The gross contractual amount of accounts receivable at the Closing Date was \$1,368, of which there was no amount deemed uncollectible. Fair value of inventory is defined as estimated selling prices less the sum of (a) costs of disposal and (b) a reasonable profit allowance for the selling effort of the acquiring entity, which the Company determined acquired cost equaled fair value of the inventory acquired.

The valuation of intangibles assets acquired and the related weighted-average amortization periods were as follows:

	Amount	Weighted-Average Expected Useful Life (in years)
Intangible assets subject to amortization:		
Customer relationships	\$ 16,000	10
Technical know-how	3,800	10
Contracts	700	5
Trade names	1,600	10
Total intangible assets subject to amortization	\$ 22,100	

Net sales and net income attributable to Chem32 during the period from the Closing Date through March 31, 2021 were immaterial. Pro forma financial information has not been presented as it is immaterial for the three months ended March 31, 2021. Acquisition and integration costs was immaterial for the three months ended March 31, 2021 and are included in other operating expense, net in the Company's consolidated statement of income.

(Dollars in thousands, except share and per share amounts) (unaudited)

### 8. Goodwill:

The change in the carrying amount of goodwill for the three months ended March 31, 2022 is summarized as follows:

	H	Coservices	Catalyst chnologies	Total
Balance as of December 31, 2021	\$	326,670	\$ 79,469	\$ 406,139
Goodwill adjustments <sup>(1)</sup>		(81)	_	(81)
Foreign exchange impact		_	(754)	(754)
Balance as of March 31, 2022	\$	326,589	\$ 78,715	\$ 405,304

<sup>(1)</sup> During the three months ended March 31, 2022, the Company recorded an adjustment of \$81 between goodwill and deferred tax liabilities related to the final tax purchase price allocation for the Chem32 acquisition.

### 9. Other Operating Expense, Net:

A summary of other operating expense, net is as follows:

	Three months ended March 31,			
	2022	_	2021	
Amortization expense	\$ 2,656	\$	2,186	
Transaction and other related costs	4,281		472	
Restructuring, integration and business optimization costs <sup>(1)</sup>	352		2,259	
Net loss on asset disposals	133		778	
Other, net	341		(188)	
	\$ 7,763	\$	5,507	

During the three months ended March 31, 2021, the Company's results were impacted by costs associated with severance charges for certain executives and employees.

### 10. Inventories, Net:

Inventories, net are classified and valued as follows:

	N	March 31, 2022	December 31, 2021		
Finished products and work in process	\$	46,864	\$	46,894	
Raw materials		7,884		6,919	
	\$	54,748	\$	53,813	
Valued at lower of cost or market:	-				
LIFO basis	\$	33,603	\$	33,330	
Valued at lower of cost and net realizable value:					
FIFO or average cost basis		21,145		20,483	
	\$	54,748	\$	53,813	

(Dollars in thousands, except share and per share amounts) (unaudited)

### 11. Investments in Affiliated Companies:

The Company accounts for investments in affiliated companies under the equity method. Affiliated companies accounted for on the equity basis as of March 31, 2022 are as follows:

Company	Country	Percent Ownership
Zeolyst International	USA	50%
Zeolyst C.V.	Netherlands	50%

Following is summarized information of the combined investments<sup>(1)</sup>:

	Three months ended March 31,			
	 2022		2021	
Sales	\$ 66,683	\$	66,205	
Gross profit	23,584		21,946	
Operating income	14,636		14,174	
Net income	14,698		13,737	

<sup>(1)</sup> Summarized information of the combined investments is presented at 100%; the Company's share of the net assets and net income of affiliates is calculated based on the percent ownership specified in the table above.

The Company's investments in affiliated companies balance as of March 31, 2022 and December 31, 2021 includes net purchase accounting fair value adjustments of \$235,819 and \$237,419, respectively, related to a prior business combination, consisting primarily of goodwill and intangible assets such as customer relationships, technical know-how and trade names. Consolidated equity in net income from affiliates is net of \$1,601 and \$1,658 of amortization expense related to purchase accounting fair value adjustments for the three months ended March 31, 2022 and 2021, respectively.

### 12. Property, Plant and Equipment:

A summary of property, plant and equipment, at cost, and related accumulated depreciation is as follows:

	March 31, 2022	December 31, 2021		
Land	\$ 96,946	\$	97,047	
Buildings and improvements	77,953		77,851	
Machinery and equipment	713,765		714,435	
Construction in progress	 54,800		45,952	
	943,464		935,285	
Less: accumulated depreciation	 (354,731)		(339,054)	
	\$ 588,733	\$	596,231	

Depreciation expense was \$16,011 and \$16,526 for the three months ended March 31, 2022 and 2021, respectively.

(Dollars in thousands, except share and per share amounts) (unaudited)

### 13. Long-term Debt:

The summary of long-term debt is as follows:

	March 31, 2022	December 31, 2021		
Senior Secured Term Loan Facility due June 2028	\$ 893,250	\$	895,500	
ABL Facility			<u> </u>	
Total debt	893,250		895,500	
Original issue discount	(8,440)		(8,762)	
Deferred financing costs	(4,724)		(4,899)	
Total debt, net of original issue discount and deferred financing costs	880,086		881,839	
Less: current portion	(9,000)		(9,000)	
Total long-term debt, excluding current portion	\$ 871,086	\$	872,839	

The fair value of a financial instrument is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. As of March 31, 2022 and December 31, 2021, the fair value of the senior secured term loan facility was \$882,084 and \$894,381, respectively. The fair value is classified as Level 2 based upon the fair value hierarchy (see Note 5 to these condensed consolidated financial statements for further information on fair value measurements).

#### 14. Financial Instruments:

The Company uses interest rate related derivative instruments to manage its exposure to changes in interest rates on its variable-rate debt instruments. The Company does not speculate using derivative instruments.

By using derivative financial instruments to hedge exposures to changes in interest rates, the Company exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is an asset, the counterparty owes the Company, which creates credit risk for the Company. When the fair value of a derivative contract is a liability, the Company owes the counterparty and therefore, the Company is not exposed to the counterparty's credit risk in those circumstances. The Company minimizes counterparty credit risk in derivative instruments by entering into transactions with high quality counterparties. The derivative instruments entered into by the Company do not contain credit-risk-related contingent features.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with the Company's derivative instruments is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

Use of Derivative Financial Instruments to Manage Interest Rate Risk. The Company is exposed to fluctuations in interest rates on its senior secured credit facilities. Changes in interest rates will not affect the market value of such debt but will affect the Company's interest payments over the term of the loans. Likewise, an increase in interest rates could have a material impact on the Company's cash flow. The Company hedges the interest rate fluctuations on debt obligations through interest rate cap agreements. The Company records these agreements at fair value as assets or liabilities in its consolidated balance sheet. As the derivatives are designated and qualify as cash flow hedges, the gains or losses on the interest rate cap agreements are recorded in stockholders' equity as a component of OCI, net of tax. Reclassifications of the gains and losses on the interest rate cap agreements into earnings are recorded as part of interest expense in the condensed consolidated statements of income as the Company makes its interest payments on the hedged portion of its senior secured credit facilities. Fair value is determined based on estimated amounts that would be received or paid to terminate the contracts at the reporting date based on quoted market prices.

In November 2018, the Company entered into interest rate cap agreements to mitigate interest volatility from July 2020 through July 2022, with a cap rate of 3.50% on \$500,000 of notional variable-rate debt and a \$3,380 premium annuitized during the effective period. In February 2020, the Company restructured these agreements to lower the interest cap rate to 2.50% with an incremental \$130 premium annuitized during the effective period. In March 2020, the Company again amended such interest rate cap agreements to lower the cap rate to 0.84% and paid an additional \$900 premium annuitized during the effective period. The term and notional amount remained unchanged, and the total cumulative annuitized premium on the \$500,000 of notional variable-rate debt is \$4,410. The cap rate in effect at March 31, 2022 was 0.84% associated with the \$500,000 of notional variable-rate debt.

(Dollars in thousands, except share and per share amounts)
(unaudited)

Upon the expiration of the July 2016 interest rate cap agreements in July 2020, the Company entered into additional interest rate cap agreements to mitigate interest rate volatility from August 2020 to August 2023, with a cap rate of 1.00% on \$400,000 of notional variable-rate debt. The cap rate in effect at March 31, 2022 was 1.00% associated with the \$400,000 of notional variable-rate debt is \$137.

In August 2021, PQ Corporation novated \$900,000 of its interest rate caps to Ecovyst Catalyst Technologies LLC. Other than the novation, there were no other changes to the interest rate cap.

In January 2022, the Company entered into two new interest rate cap agreements, with notional amounts of \$250,000 each and cap rates of 1.00%. The total cumulative annuitized premium is \$4,450. The term for one of the interest rate caps is August 2022 through October 2024 and the term for the other is September 2023 through October 2025.

Use of Derivative Financial Instruments to Manage Foreign Currency Risk. The Company is exposed to risks related to its net investments in foreign operations due to fluctuations in foreign currency exchange rates, particularly between the United States dollar and the Euro. In February 2018, the Company entered into multiple cross-currency interest rate swap arrangements with an aggregate notional amount of €280,000 to hedge this exposure on the net investments of certain of its Euro-denominated subsidiaries in its Performance Materials and Performance Chemicals businesses. The Company recorded these swap agreements at fair value as assets or liabilities in its consolidated balance sheet. As the derivatives are designated and qualify as net investment hedges, changes in the fair value of the swaps attributable to changes in the spot exchange rates are recognized in cumulative translation adjustment ("CTA") within OCI and are held there until the hedged net investments are sold or substantially liquidated. Upon such sale or liquidation, the amount recognized in CTA is reclassified to earnings and reported in the same line item as the gain or loss on the liquidation of the net investments. Changes in the fair value of the swaps attributable to the cross-currency basis spread are excluded from the assessment of hedge effectiveness and are recorded in current period earnings.

In March 2021, as a result of the divestitures of the Performance Materials and Performance Chemicals businesses, the Company settled its cross-currency swaps. At the date of settlement, the total notional value of the cross-currency swaps was \$311,380. The Company paid \$13,170 in cash to settle the swaps, which is included in net cash used in investing activities, discontinued operations in the Company's condensed consolidated statement of cash flows for the three months ended March 31, 2021, as the underlying subsidiary subject to the net investment hedging relationship is part of the Performance Chemicals business.

The fair values of derivative instruments held as of March 31, 2022 and December 31, 2021 are shown below:

	Balance sheet location	March 31, 2022		Γ	December 31, 2021
Derivative assets:					
Derivatives designated as cash flow hedges:					
Interest rate caps	Prepaid and other current assets		2,982		_
Interest rate caps	Other long-term assets	\$	15,169	\$	1,080
Total derivative assets		\$	18,151	\$	1,080
					,
Derivative liabilities:					
Derivatives designated as cash flow hedges:					
Interest rate caps	Accrued liabilities	\$	304	\$	1,288
Total derivative liabilities		\$	304	\$	1,288

The following tables show the effect of the Company's derivative instruments designated as cash flow hedges on AOCI for the three months ended March 31, 2022 and 2021:

		Three months ended March 31,							
			2022				200	21

The effects of cash flow hedging:						
Gain (loss) on cash flow hedging relationships:						
Interest contracts:						
Amount of gain (loss) reclassified from AOCI into income		(683)		(109)		

The amount of unrealized losses in AOCI related to the Company's cash flow hedges that is expected to be reclassified to the condensed consolidated statement of income over the next twelve months is \$545 as of March 31, 2022.

The following table shows the effect of the Company's net investment hedges on AOCI and the condensed consolidated statements of income for the three months ended March 31, 2021:

	Amount of pre-tax gain (loss) recognized in OCI on derivative	Location of gain (loss) reclassified from AOCI into income	Amount of gain (loss reclassified from AOCI into income	Location of gain (loss) recognized in income on derivative (amount excluded from effectiveness testing)	Amount of gain (l recognized in inco on derivative (amo excluded from effectiveness testi	omé ount 1
Cross-currency interest rate swaps	\$ 9,787	Net (loss) income from discontinued operations, net of tax	\$ —	Interest (expense) income	\$ 5	545

### 15. Income Taxes:

The effective income tax rate for the three months ended March 31, 2022 was 42.1% compared to 65.4% for the three months ended March 31, 2021. The Company's effective income tax rate has fluctuated primarily due to changes in income mix, the impacts of the Global Intangible Low Taxed Income ("GILTI") tax rules, discrete impacts related to intraperiod allocation revaluation of deferred tax assets and liabilities as a result of the divestiture of the Performance Chemicals business, tax rate changes and changes in foreign exchange gains and losses, which create permanent differences in certain jurisdictions.

The difference between the U.S. federal statutory income tax rate and the Company's effective income tax rate for the three months ended March 31, 2022 was mainly due to state and local taxes, a discrete shortfall tax expense related to stock compensation, and a discrete tax expense associated with the Employee Retention Credit.

The difference between the U.S. federal statutory income tax rate and the Company's effective income tax rate for the three months ended March 31, 2021 was mainly due to state and local taxes, discrete tax impacts related to intra-period allocation revaluation of deferred tax assets and liabilities as a result of the Performance Chemicals divestiture, and the tax effect of permanent differences related to foreign currency exchange gain or loss.

### 16. Benefit Plans:

The following tables present the components of net periodic cost (benefit) for the Company-sponsored defined benefit pension and postretirement plans, which cover certain employees and retirees located in the U.S.

### **Defined Benefit Pension Plans**

		onths ended rch 31,
	2022	2021
Interest cost	604	551
Expected return on plan assets	(1,110)	(1,094)
Net periodic benefit	\$ (506)	\$ (543)

### Other Postretirement Benefit Plan

	Three mor Marc	
	2022	2021
Interest cost	4	4
Amortization of prior service credit	(53)	(58)
Amortization of net loss	1	1
Net periodic benefit	\$ (48)	\$ (53)

### 17. Commitments and Contingent Liabilities:

There is a risk of environmental impact in the Company's manufacturing operations. The Company's environmental policies and practices are designed to comply with existing laws and regulations and to minimize the possibility of significant environmental impact. The Company is also subject to various other lawsuits and claims with respect to matters such as governmental regulations, labor and other actions arising out of the normal course of business. All claims that are probable and reasonably estimable have been accrued for in the Company's condensed consolidated financial statements. When these matters are ultimately concluded and determined, the Company believes that there will be no material adverse effect on its consolidated financial position, results of operations or liquidity.

(Dollars in thousands, except share and per share amounts) (unaudited)

### 18. Reportable Segments:

Summarized financial information for the Company's reportable segments is shown in the following table:

	Three months ended March 31,			
	2022		2021	
Sales:				
Ecoservices	\$ 154,060	\$	100,222	
Catalyst Technologies <sup>(1)</sup>	25,654		26,402	
Total	\$ 179,714	\$	126,624	
Adjusted EBITDA: <sup>(2)</sup>				
Ecoservices	\$ 49,341	\$	33,002	
Catalyst Technologies <sup>(3)</sup>	16,975		18,469	
Unallocated corporate expenses	(7,076)		(9,167)	
Total	\$ 59,240	\$	42,304	

<sup>(1)</sup> Excludes the Company's proportionate share of sales from the Zeolyst International and Zeolyst C.V. joint ventures (collectively, the "Zeolyst Joint Venture") accounted for using the equity method (see Note 11 to these condensed consolidated financial statements for further information). The proportionate share of sales is \$28,977 and \$28,978 for the three months ended March 31, 2022 and 2021, respectively.

<sup>(2)</sup> The Company defines Adjusted EBITDA as EBITDA adjusted for certain items as noted in the reconciliation below. Management evaluates the performance of its segments and allocates resources based on several factors, of which the primary measure is Adjusted EBITDA. Adjusted EBITDA should not be considered as an alternative to net income as an indicator of the Company's operating performance. Adjusted EBITDA as defined by the Company may not be comparable with EBITDA or Adjusted EBITDA as defined by other companies.

<sup>(3)</sup> The Adjusted EBITDA from the Zeolyst Joint Venture included in the Catalyst Technologies segment is \$11,474 for the three months ended March 31, 2022, which includes \$5,787 of equity in net income plus \$1,601 of amortization of investment in affiliate step-up and \$4,087 of joint venture depreciation, amortization and interest. The Adjusted EBITDA from the Zeolyst Joint Venture included in the Catalyst Technologies segment is \$10,537 for the three months ended March 31, 2021, which includes \$5,237 of equity in net income plus \$1,658 of amortization of investment in affiliate step-up and \$3,645 of joint venture depreciation, amortization and interest.

(Dollars in thousands, except share and per share amounts) (unaudited)

A reconciliation of net income (loss) to Ecovyst to Adjusted EBITDA is as follows:

		Three months ended March 31,		
		2022		2021
Reconciliation of net income (loss) from continuing operations to Adjusted EBITDA	L			
Net income (loss) from continuing operations	\$	7,875	\$	(2,748)
Provision (benefit) for income taxes		5,720		(5,190)
Interest expense, net		8,450		10,456
Depreciation and amortization		19,546		19,500
EBITDA		41,591		22,018
Joint venture depreciation, amortization and interest		4,087		3,645
Amortization of investment in affiliate step-up		1,601		1,658
Net loss on asset disposals		133		778
Foreign exchange losses		647		5,101
LIFO expense (benefit)		245		(253)
Transaction and other related costs		4,281		472
Equity-based compensation		7,294		6,305
Restructuring, integration and business optimization expenses		352		2,259
Defined benefit pension plan benefit		(554)		(595)
Other		(437)		916
Adjusted EBITDA	\$	59,240	\$	42,304

(Dollars in thousands, except share and per share amounts)
(unaudited)

### 19. Stock-Based Compensation:

The Company has an equity incentive plan under which it grants common stock awards to employees, directors and affiliates of the Company. At March 31, 2022, 8,594,638 shares of common stock were available for issuance under the plan. The Company settles these awards through the issuance of new shares.

### Restricted Stock Units and Performance Stock Units

Restricted Stock Units

During the three months ended March 31, 2022, the Company granted 2,645,758 restricted stock units under its equity incentive plan. Each restricted stock unit provides the recipient with the right to receive a share of common stock subject to graded vesting terms based on service, which for the awards granted during the three months ended March 31, 2022, generally requires approximately one year of service for members of the Company's board of directors and approximately three years of service for employees. The awards granted during the three months ended March 31, 2022 also included a special grant for certain employees based on service which cliff vests on July 1, 2023. The value of the restricted stock units granted during the three months ended March 31, 2022 was based on the average of the high and low trading prices of the Company's common stock on the NYSE on the preceding trading day, in accordance with the Company's policy for valuing such awards. Compensation expense related to the restricted stock units is recognized on a straight-line basis over the respective vesting period.

Performance Stock Units

### 2022 Grants

During the three months ended March 31, 2022, the Company granted 245,380 performance stock units (at target) under its equity incentive plan. The performance stock units granted during the three months ended March 31, 2022 provide the recipients with the right to receive shares of common stock dependent on the achievement of a total shareholder return ("TSR") goal, and are generally subject to the provision of service through the vesting date of the award. The performance period for the TSR goal is measured based on a three-year performance period from January 1, 2022 through December 31, 2024. The TSR goal is based on the Company's actual TSR percentage increase over the performance period. Depending on the Company's performance relative to the TSR goal, each performance stock unit award recipient is eligible to receive a percentage of the target number of shares granted to the recipient, ranging from zero to 200%. The performance stock units, to the extent earned, will vest on the date the Company's compensation and governance committee certifies the achievement of the performance metric for the three-year period ending December 31, 2024, which will occur subsequent to the end of the performance period and after the Company files its annual consolidated financial statements for the year ending December 31, 2024.

The TSR goal is considered a market condition as opposed to a vesting condition. Because a market condition is not considered a vesting condition, it is reflected in the grant date fair value of the award and the associated compensation cost based on the fair value of the award is recognized over the performance period, regardless of whether the Company actually achieves the market condition or the level of achievement, as long as service is provided by the recipient. The Company used a Monte Carlo simulation to estimate the fair value of the awards, with the following assumptions:

Expected dividend yield	— %
Risk-free interest rate	1.24 %
Expected volatility	44.00 %
Expected term (in years)	2.96
Stock price	\$ 10.41

(Dollars in thousands, except share and per share amounts)
(unaudited)

### 2019 Grants

During the three months ended March 31, 2022, the Company's compensation and governance committee certified the achievement of the performance metrics for the three-year period ended December 31, 2021, related to the performance stock units granted during the year ended December 31, 2019. These awards provided the recipients with the right to receive shares of common stock dependent on the achievement of two Company-specific financial performance targets and the provision of service through the vesting date, with each award holder eligible to earn a percentage of the target number of shares granted to the holder, ranging from zero to 200%. The awards vested during the three months ended March 31, 2022 at 100% of target.

Award Activity

The following table summarizes the activity for the Company's restricted stock units and performance stock units for the three months ended March 31, 2022:

	Restricted Stock Units			Performanc	Units		
	Number of Units	Weighted Average Grant Date Fair Value (per share)		Average Grant Date Fair Value Number of		Ave Date	Veighted rage Grant e Fair Value eer share)
Nonvested as of December 31, 2021	2,507,421	\$	15.68	1,117,555	\$	16.91	
Granted	2,645,758	\$	10.29	245,380	\$	8.95	
Vested	(1,316,703)	\$	15.67	(496,442)	\$	15.41	
Forfeited	(268,567)	\$	14.96	(14,664)	\$	12.08	
Nonvested as of March 31, 2022	3,567,909	\$	11.74	851,829	\$	15.50	

### Stock-Based Compensation Expense

For the three months ended March 31, 2022 and 2021, stock-based compensation expense for the Company was \$7,294 and \$6,305, respectively. The associated income tax benefit recognized in the statements of income for the three months ended March 31, 2022 and 2021 was \$1,788 and \$1,543, respectively.

With the new grants of restricted stock units and performance stock units during the three months ended March 31, 2022, unrecognized compensation cost at March 31, 2022 was \$39,583 for restricted stock units and \$7,414 for performance stock units considered probable of vesting. The weighted-average period over which these costs are expected to be recognized at March 31, 2022 is 1.96 years for the restricted stock units and 1.72 years for the performance stock units. Activity related to the Company's stock options and restricted stock awards was not material for the three months ended March 31, 2022.

### 20. Earnings per Share:

Basic earnings per share is calculated as income (loss) available to common stockholders, divided by the weighted average number of common shares outstanding during the period. The weighted average number of common shares outstanding during the period for the computation of basic earnings per share excludes restricted stock awards that have legally been issued but are nonvested during the period, as the sale of these shares is prohibited pending satisfaction of certain vesting conditions by the award recipients in order to earn the rights to the shares.

Diluted earnings per share is calculated as income (loss) available to common stockholders, divided by the weighted average number of common and potential common shares outstanding during the period, if dilutive. Potential common shares reflect (1) unvested restricted stock awards and restricted stock units with service vesting conditions, (2) performance stock units with vesting conditions considered probable of achievement and (3) options to purchase common stock, all of which have been included in the diluted earnings per share calculation using the treasury stock method.

(Dollars in thousands, except share and per share amounts) (unaudited)

The reconciliation from basic to diluted weighted average shares outstanding is as follows:

	Three months ended March 31,		
	2022	2021	
Weighted average shares outstanding - Basic	137,684,773	136,006,082	
Dilutive effect of unvested common shares and restricted stock units with service conditions, performance stock units considered probable of vesting and assumed stock option exercises and			
conversions	1,064,292		
Weighted average shares outstanding - Diluted	138,749,065	136,006,082	

Basic and diluted income (loss) per share are calculated as follows:

	Three months ended March 31,			
		2022		2021
Numerator:				
Income (loss) from continuing operations attributable to Ecovyst Inc.	\$	7,875	\$	(2,748)
Loss from discontinued operations attributable to Ecovyst Inc.				(89,887)
Net income (loss) attributable to Ecovyst Inc.	\$	7,875	\$	(92,635)
Denominator:				
Weighted average shares outstanding – Basic		137,684,773		136,006,082
Weighted average shares outstanding - Diluted		138,749,065		136,006,082
Net loss per share:				
Basic income (loss) per share - continuing operations		0.06		(0.02)
Diluted income (loss) per share - continuing operations		0.06		(0.02)
Basic loss per share - discontinued operations		_		(0.66)
Diluted loss per share - discontinued operations				(0.66)
Basic income (loss) per share	\$	0.06	\$	(0.68)
Diluted income (loss) per share	\$	0.06	\$	(0.68)

(Dollars in thousands, except share and per share amounts) (unaudited)

The table below presents the details of the Company's weighted average equity-based awards outstanding during each respective period that were excluded from the calculation of diluted earnings per share:

	Three months ended March 31,		
	2022	2021	
Restricted stock awards with performance only targets not yet achieved	613,903	883,380	
Stock options with performance only targets not yet achieved	326,689	376,812	
Anti-dilutive restricted stock awards, restricted stock units and performance stock units	_	_	
Anti-dilutive stock options	807,301	_	

Restricted stock awards and stock options with performance only vesting conditions were not included in the dilution calculation, as the performance targets have not been achieved nor were probable of achievement as of the end of the respective periods. Certain stock options to purchase shares of common stock were excluded from the computation of diluted earnings per share for the respective periods, because the combination of the options' exercise price and remaining unamortized stock-based compensation expense was greater than the average market price of the common shares. Anti-dilutive awards are not included in the dilution calculation, as their inclusion would have the effect of increasing diluted income per share.

### 21. Supplemental Cash Flow Information:

With the exception of operating leases, the following table presents supplemental cash flow information for the consolidated Company:

	Three months ended March 31,				
	2022			2021	
Cash paid during the period for:					
Income taxes, net of refunds	\$	10,662	\$	4,248	
Interest <sup>(1)</sup>		8,363		17,791	
Non-cash investing activity:					
Capital expenditures acquired on account but unpaid as of the period end		4,674		8,118	
Right-of-use assets obtained in exchange for new lease liabilities (non-cash):					
Operating leases		2,955		4,738	

<sup>(1)</sup> Cash paid for interest is shown net of capitalized interest for the periods presented and excludes \$2,307 of net interest proceeds on swaps designated as net investment hedges for the three months ended March 31, 2021, which are included within cash flows from investing activities, discontinued operations in the Company's condensed consolidated statements of cash flows.

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported within the condensed consolidated balance sheets as of March 31, 2022 and 2021 to the total of the same amounts shown in the condensed consolidated statements of cash flows for the three months then ended:

	March 31,				
	2022		2021		
Cash and cash equivalents	\$ 129,748	\$	55,171		
Restricted cash included in prepaid and other current assets			1,591		
Total cash, cash equivalents and restricted cash shown in the condensed consolidated statements of cash flows	\$ 129,748	\$	56,762		

### 22. Subsequent Events:

On April 27, 2022, the Board approved a plan to purchase up to \$450,000 of Ecovyst Inc. common stock over the next four years under a stock repurchase program. See Note 6 to these condensed consolidated financial statements for further information.

Other than this item, the Company has evaluated subsequent events since the balance sheet date and determined that there are no additional items to disclose.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Unless the context requires otherwise, references in this report to "Ecovyst," "the company," "we," "us" or "our" refer to Ecovyst Inc. and its consolidated subsidiaries.

#### Forward-looking Statements

This periodic report on Form 10-Q ("Form 10-Q") includes "forward-looking statements" that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "should" and similar expressions are intended to identify these forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, short- and long-term business operations and objectives, and financial needs. Examples of forward-looking statements include, but are not limited to, statements we make regarding demand trends, the impact of the novel coronavirus ("COVID-19") pandemic and/or, Russia's invasion of Ukraine and related economic effects on our operations and financial results and our liquidity, and our belief that our current level of operations, cash and cash equivalents, cash flow from operations and borrowings under our credit facilities and other lines of credit will provide us adequate cash to fund the working capital, capital expenditure, debt service and other requirements for our business for at least the next twelve months.

These forward-looking statements are subject to a number of risks, uncertainties and assumptions. Moreover, we operate in a very competitive and rapidly changing environment and new risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed herein may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.

Some of the key factors that could cause actual results to differ from our expectations include the following risks related to our business:

- as a global business, we are exposed to local business risks in different countries;
- we are affected by general economic conditions and economic downturns;
- exchange rate fluctuations could adversely affect our financial condition, results of operations and cash flows;
- our international operations require us to comply with anti-corruption laws, trade and export controls and regulations of the U.S. government and various international jurisdictions in which we do business;
- · alternative technology or other changes in our customers' products may reduce or eliminate the need for certain of our products;
- our new product development and research and development efforts may not succeed and our competitors may develop more effective or successful products;
- our substantial level of indebtedness could adversely affect our financial condition;
- if we are unable to pass on increases in raw material prices, including natural gas, to our customers or to retain or replace our key suppliers, our results of operations and cash flows may be negatively affected;
- · we face substantial competition in the industries in which we operate;
- we are subject to the risk of loss resulting from non-payment or non-performance by our customers;
- · we rely on a limited number of customers for a meaningful portion of our business;
- multi-year customer contracts in our Ecoservices segment are subject to potential early termination and such contracts may not be renewed at the end of their respective terms;
- our quarterly results of operations are subject to fluctuations because demand for some of our products is seasonal;
- our growth projects may result in significant expenditures before generating revenues, if any, which may materially and adversely affect our ability to implement our business strategy:
- we may be liable to damages based on product liability claims brought against us or our customers for costs associated with recalls of our or our customers' products;
- we are subject to extensive environmental, health and safety regulations and face various risks associated with potential non-compliance or releases of hazardous materials;

- existing and proposed regulations to address climate change by limiting greenhouse gas emissions may cause us to incur significant additional operating and capital
  expenses and may impact our business and results of operations;
- production and distribution of our products could be disrupted for a variety of reasons, and such disruptions could expose us to significant losses or liabilities;
- the insurance that we maintain may not fully cover all potential exposures;
- we could be subject to damages based on claims brought against us by our customers or lose customers as a result of the failure of our products to meet certain quality specifications;
- our failure to protect our intellectual property and infringement on the intellectual property rights of third parties;
- losses and damages in connection with information technology and cyber security risks could adversely affect our operations;
- the impact of the ongoing COVID-19 pandemic on the global economy and financial markets, as well as on our business and our suppliers, and the response of
  governments and of our company to the outbreak, including variants of the virus and associated containment, remediation and vaccination efforts; and
- other factors set forth in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021.

The forward-looking statements included herein are made only as of the date hereof. You should not rely upon forward-looking statements as predictions of future events. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that the future results, levels of activity, performance or events and circumstances reflected in the forward-looking statements will be achieved or occur. Moreover, neither we nor any other person assumes responsibility for the accuracy and completeness of the forward-looking statements. We undertake no obligation to update publicly any forward-looking statements for any reason after the date of this Form 10-O to conform these statements to actual results or to changes in our expectations.

#### Overview

We are a leading integrated and innovative global provider of specialty catalysts and services. We believe that our products, which are predominantly inorganic, and services contribute to improving the sustainability of the environment.

We conduct operations through two reporting segments: (1) Ecoservices and (2) Catalyst Technologies (including our 50% interest in the Zeolyst Joint Venture).

Ecoservices: We are a leading provider of sulfuric acid recycling services to North American refineries for the production of alkylate, an essential gasoline component for lowering vapor pressure and increasing octane to meet stringent gasoline specifications and fuel efficiency standards. We are also a leading North American producer of onpurpose virgin sulfuric acid for water treatment, mining, and industrial applications.

Catalyst Technologies: We are a global supplier of finished silica catalysts and catalyst supports necessary to produce high strength and high stiffness plastics used in packaging films, bottles, containers, and other molded applications. This segment includes our 50% interest in the Zeolyst Joint Venture, where we are a leading global supplier of zeolites used for catalysts that remove nitrogen oxides from diesel engine emissions as well as sulfur from fuels during the refining process.

Impact of Russia's invasion of Ukraine on our Business and Results

We are continuing to monitor the developments in Russia and Ukraine, as well as the related economic sanctions and export controls imposed on certain industry sectors. Although the current conflict may create global economic and political uncertainties and potential supply chain disruptions, we do not believe we have significant exposure in those countries. We have no operations in Russia or Ukraine. We had no sales to customers in Ukraine and our sales to a customer in Russia w immaterial for the three months ended March 31, 2022 and 2021, respectively. We also did not make any purchases from suppliers in Russia or Ukraine. As Russia's invasion of Ukraine continues to unfold, we will continue to monitor compliance with sanctions imposed by the U.S. government and other countries.

Stock Repurchase Program

In April 2022, our Board of Directors approved a new stock repurchase program authorizing the repurchase of up to \$450 million of Ecovyst's outstanding common stock over the next four years. This new program is expected to be funded using cash on hand and cash generated from operations. We primarily expect to conduct the repurchase program through negotiated transactions with Ecovyst's equity sponsors, as well as through open market repurchases or other means, including through Rule 10b-18 trading plans or through the use of other techniques such as accelerated share repurchases. The actual timing, number and nature of shares repurchased will depend on a variety of factors, including stock price, trading volume, and general business and market conditions.

The repurchase program does not obligate us to acquire any number of shares in any specific period or at all and may be amended, suspended or discontinued at any time at our discretion.

#### **Key Performance Indicators**

### Adjusted EBITDA and Adjusted Net Income

Adjusted EBITDA and adjusted net income are financial measures that are not prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and that we use to evaluate our operating performance, for business planning purposes and to measure our performance relative to that of our competitors. Adjusted EBITDA and adjusted net income are presented as key performance indicators as we believe these financial measures will enhance a prospective investor's understanding of our results of operations and financial condition. EBITDA consists of net income (loss) attributable to continuing operations before interest, taxes, depreciation and amortization. Adjusted EBITDA consists of EBITDA adjusted for (i) non-operating income or expense, (ii) the impact of certain non-cash, nonrecurring or other items included in net income (loss) and EBITDA that we do not consider indicative of our ongoing operating performance, and (iii) depreciation, amortization and interest of our 50% share of the Zeolyst Joint Venture. Adjusted net income consists of net income (loss) attributable to Ecovyst Inc. adjusted for (i) non-operating income or expense and (ii) the impact of certain non-cash, nonrecurring or other items included in net income (loss) that we do not consider indicative of our ongoing operating performance. We believe that these non-GAAP financial measures provide investors with useful financial metrics to assess our operating performance from period-to-period by excluding certain items that we believe are not representative of our core business.

You should not consider adjusted EBITDA or adjusted net income in isolation or as alternatives to the presentation of our financial results in accordance with GAAP. The presentation of adjusted EBITDA and adjusted net income financial measures may differ from similar measures reported by other companies and may not be comparable to other similarly titled measures. In evaluating adjusted EBITDA and adjusted net income, you should be aware that we are likely to incur expenses similar to those eliminated in this presentation in the future and that certain of these items could be considered recurring in nature. Our presentation of adjusted EBITDA and adjusted net income should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items. Reconciliations of adjusted EBITDA and adjusted net income to GAAP net income (loss) are included in the results of operations discussion that follows for each of the respective periods.

### **Key Factors and Trends Affecting Operating Results and Financial Condition**

### Sales

Overall our Ecoservices and Catalyst Technologies segments' sales have grown despite delays in shipments from supply chain constraints. Demand for our products has rebounded since the 2020 lows that resulted from the impact of COVID-19 and the early 2021 lows that resulted from the freezing weather in the Gulf region. Polyethlene demand has remained strong, driven by the growing consumer demand for stronger and lighter weighted plastics. Higher refinery utilization rates increased catalyst demand for both traditional and renewable fuels on the continued recovery in vehicle miles driven. Tightening gasoline standards and growing demand for premium grade gasoline to power fuel efficient engines has supported high alkylation utilization rates. Virgin sulfuric acid has benefited from strong mining for metals and minerals which provide conductivity in low carbon technologies, as well as strong demand from numerous industrial segments producing construction, auto, and packaging materials.

Sales in our Ecoservices and Catalyst Technologies segments are made on both a purchase order basis and pursuant to long-term contracts.

Our Catalyst Technologies segment, experiences demand fluctuations based upon the timing of our customer's fixed bed catalyst replacements.

### Cost of Goods Sold

Cost of goods sold consists of variable product costs, fixed manufacturing expenses, depreciation expense and freight expenses. Variable product costs include all raw materials, energy and packaging costs that are directly related to the manufacturing process. Fixed manufacturing expenses include all plant employment costs, manufacturing overhead and periodic maintenance costs.

The primary raw materials for our Ecoservices segment include spent sulfuric acid, sulfur, acids, bases (including sodium hydroxide, or "caustic soda"), and certain metals. Spent sulfuric acid for our Ecoservices segment is supplied by customers. The primary raw materials used in the manufacture of products in our Catalyst Technologies segments include sodium silicate and cesium hydroxide.

Most of our Ecoservices contracts feature take-or-pay volume protection and/or quarterly price adjustments for commodity inputs, labor, the Chemical Engineering Index (U.S. chemical plant construction cost index) and natural gas. Over 80% of our Ecoservices segment sales for the year ended December 31, 2021 were under contracts featuring quarterly price adjustments. The price adjustments generally reflect actual costs for producing acid and tend to protect us from volatility in labor, fixed costs and raw

material pricing. The take-or-pay volume protection allows us to cover fixed costs through intermittent, temporary production issues at customer refineries.

While natural gas is not a direct feedstock for any product, natural gas powered machinery and equipment are used to heat raw materials and create the chemical reactions necessary to produce end-products. We maintain multiple suppliers wherever possible and structure our customer contracts when possible to allow for the pass-through of raw material, labor and natural gas costs.

#### Joint Venture

We account for our investments in our equity joint ventures under the equity method. Our joint venture, the Zeolyst Joint Venture, manufactures high performance, specialty, zeolite-based catalysts for use in the packaging and engineered plastics, emission control, refining and petrochemical industries and other areas of the broader chemicals industry. Demand for the Zeolyst Joint Venture products fluctuates based upon the timing of our customer's fixed bed catalyst replacements. We share proportionally in the management of our joint venture with the other parties to such joint venture.

### Seasonality

Our regeneration services product group, which is a part of our Ecoservices segment, typically experiences seasonal fluctuations as a result of higher demand for gasoline products in the summer months and lower demand in the winter months. These demand fluctuations result in higher sales and working capital requirements in the second and third quarter.

### Foreign Currency

As a global business, we are subject to the impact of gains and losses on currency translations, which occur when the financial statements of foreign operations are translated into U.S. dollars. We operate in various geographies with approximately 5% of our sales for the three months ended March 31, 2022 and 6% for the year ended December 31, 2021 are in currencies other than the U.S. dollar. Because our consolidated financial results are reported in U.S. dollars, sales or earnings generated in currencies other than the U.S. dollar can result in a significant increase or decrease in the amount of those sales and earnings when translated to U.S. dollars. The foreign currency to which we have the most significant exchange rate exposure is the British pound.

#### **Results of Operations**

### Three months ended March 31, 2022 Compared to the Three months ended March 31, 2021

### Highlights

The following is a summary of our financial performance for the three months ended March 31, 2022 compared with the three months ended March 31, 2021.

#### Sales

Sales increased \$53.1 million to \$179.7 million. The increase in sales was primarily due to higher sales volumes and the favorable pass-through of sulfur pricing.

### Gross Profit

• Gross profit increased \$17.6 million to \$47.7 million. The increase in gross profit was primarily due to higher sales volumes, favorable pricing, partially offset by higher manufacturing costs.

### Operating Income

• Operating income increased by \$14.0 million to \$16.5 million. The increase in operating income was due to an increase in gross profit, partially offset by higher selling, general, and administrative expenses.

### Equity in Net Income of Affiliated Companies

• Equity in net income of affiliated companies for the three months ended March 31, 2022 was \$5.7 million, compared with \$5.2 million for the three months ended March 31, 2021. The increase was primarily due to \$0.5 million of higher earnings from the Zeolyst Joint Venture during the three months ended March 31, 2022.

The following is our unaudited condensed consolidated statements of income and a summary of financial results for the three months ended March 31, 2022 and 2021:

Thuse menths anded

	Three months ended March 31,				Change			
		2022 2021			S	%		
			(in millions, ex	cept per	centages)

Less: Net income attributable to the noncontrolling interest—discontinued operations			0.1		(0.1)	(100.0)%		
Net income (loss) attributable to Ecovyst Inc.	\$	7.9	\$ (92.6)	\$	100.5	(108.5)%		

#### Sales

		Three mo Mar	onths each 31,	nded	Change			
2022			022 2021			\$	%	
Sales:		(in millions, except percentages)						
Ecoservices	\$	154.0	\$	100.2	\$	53.8	53.7 %	
Catalyst Technologies		25.7		26.4		(0.7)	(2.7)%	
Total sales	\$	179.7	\$	126.6	\$	53.1	41.9 %	

Ecoservices: Sales in Ecoservices for the three months ended March 31, 2022 were \$154.0 million, an increase of \$53.8 million, or 53.7%, compared to sales of \$100.2 million for the three months ended March 31, 2021. The increase in sales was due to higher average selling price of \$37.3 million and an increase in sales volumes of \$16.5 million. Higher average selling prices benefited from favorable pricing, including the pass-through of higher freight, labor, and energy indexed costs, as well as the pass-through of higher sulfur costs of \$21.3 million. Sales volumes increased in both regeneration services and virgin sulfuric acid on demand recovery and the comparability to the prior year that was depressed by the freezing weather in the Gulf region, as well as the impact of our Chem32 acquisition.

Catalyst Technologies: Sales in Catalyst Technologies for the three months ended March 31, 2022 were \$25.7 million, a decrease of \$0.7 million, or (2.7)%, compared to sales of \$26.4 million for the three months ended March 31, 2021. The decrease in sales was driven by delayed shipments and the timing of the niche custom catalyst sales, offset by higher polyethylene catalyst sales. Price increases implemented late in 2021 and an energy surcharge program are offsetting inflating costs.

### Gross Profit

Gross profit for the three months ended March 31, 2022 was \$47.7 million, an increase of \$17.6 million, or 58.5%, compared with \$30.1 million for the three months ended March 31, 2021. The increase in gross profit was due to favorable volumes of \$9.6 million, higher pricing of \$36.5 million, partially offset by higher manufacturing costs of \$28.1 million.

The higher average selling prices and favorable volumes on our gross profit was a driven by favorable pricing and pass through of higher variable costs along with higher volume demand in our Ecoservices business. Rising inflation costs on raw materials, energy, and transportation primarily drove the higher manufacturing costs, that were more than offset in price, in March 31, 2022 as compared to March 31, 2021.

### Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended March 31, 2022 was \$23.5 million, an increase of \$1.4 million as compared to \$22.1 million for the three months ended March 31, 2021. The increase in selling, general and administrative expenses was due to higher compensation-related expenses.

#### Other Operating Expense, Net

Other operating expense, net for the three months ended March 31, 2022 was \$7.7 million, an increase of \$2.2 million, compared with \$5.5 million for the three months ended March 31, 2021. The decrease in other operating expense, net was primarily a result of lower severance charges incurred in the current period.

### Equity in Net Income of Affiliated Companies

Equity in net income of affiliated companies for the three months ended March 31, 2022 was \$5.7 million, compared to \$5.2 million for the three months ended March 31, 2021. The increase was primarily due to \$0.5 million of higher earnings from the Zeolyst Joint Venture during the three months ended March 31, 2022.

### Interest Expense, Net

Interest expense, net for the three months ended March 31, 2022 was \$8.5 million, a decrease of \$2.0 million, as compared with \$10.5 million for the three months ended March 31, 2021. The decrease in interest expense was primarily due to lower interest rates on our variable-rate debt and lower average debt balances.

#### Other Expense, Net

Other expense, net for the three months ended March 31, 2022 was \$0.1 million, a decrease of \$5.0 million, as compared with income of \$5.1 million for the three months ended March 31, 2021. The decrease in other expense, net primarily consisted of smaller foreign currency gain in the current year as compared to the prior year related to the non-permanent intercompany debt denominated in local currency and translated to the U.S. dollar, offset by net periodic benefit for the defined benefit pension and postretirement plans.

### Provision (Benefit) for Income Taxes

The provision for income taxes for the three months ended March 31, 2022 was \$5.7 million compared to a \$5.2 million benefit for the three months ended March 31, 2021. The effective income tax rate for the three months ended March 31, 2022 was 42.1% compared to 65.4% for the three months ended March 31, 2021.

The Company's effective income tax rate fluctuates primarily due to GILTI, discrete impacts of the divestiture of the Performance Chemicals business, and tax rate changes.

The difference between the U.S. federal statutory income tax rate and the Company's effective income tax rate for the three months ended March 31, 2022 was mainly due to state and local taxes, a discrete shortfall tax expense related to stock compensation, and a discrete tax expense associated with the Employee Retention Credit.

### Net Income (Loss) Attributable to Ecovyst

For the foregoing reasons and after the effect of the non-controlling interest in earnings of subsidiaries for the period ending March 31, 2021, net income attributable to Ecovyst was \$7.9 million for the three months ended March 31, 2022 compared with net loss of \$92.6 million for the three months ended March 31, 2021.

### Adjusted EBITDA

Summarized Adjusted EBITDA information is shown below in the following table:

	Three months ended March 31,			Change				
	 2022		2021		\$	%		
	(in millions, except percentages)							
Adjusted EBITDA:(1)								
Ecoservices	\$ 49.3	\$	33.0	\$	16.3	49.4 %		
Catalyst Technologies <sup>(2)</sup>	17.0		18.5		(1.5)	(8.1)%		
Unallocated corporate expenses	(7.1)		(9.2)		2.1	(22.8)%		
Total	\$ 59.2	\$	42.3	\$	16.9	40.0 %		

We define Adjusted EBITDA as EBITDA adjusted for certain items as noted in the reconciliation below. Our management evaluates the performance of our segments and allocates resources based primarily on Adjusted EBITDA. Adjusted EBITDA does not represent cash flow for periods presented and should not be considered as an alternative to net income as an indicator of our operating performance or as an alternative to cash flows as a source of liquidity. Adjusted EBITDA may not be comparable with EBITDA or Adjusted EBITDA as defined by other companies.

*Ecoservices*: Adjusted EBITDA for the three months ended March 31, 2022 was \$49.3 million, an increase of \$16.3 million, or 49.4%, compared with \$33.0 million for the three months ended March 31, 2021. The increase in Adjusted EBITDA was a result of higher volume, favorable pricing covering rising input costs, and the benefit of the Chem32 acquisition that closed in March 2021.

Catalyst Technologies: Adjusted EBITDA for the three months ended March 31, 2022 was \$17.0 million, a decrease of \$1.5 million, or 8.1%, compared with \$18.5 million for the three months ended March 31, 2021. The decrease in Adjusted EBITDA was due to lower volumes as well as higher input and energy production costs.

The Adjusted EBITDA from the Zeolyst Joint Venture included in the Catalyst Technologies segment is \$11.5 million for the three months ended March 31, 2022, which includes \$5.8 million of equity in net income, excluding \$1.6 million of amortization of investment in affiliate step-up plus \$4.1 million of joint venture depreciation, amortization and interest. The Adjusted EBITDA from the Zeolyst Joint Venture included in the Catalyst Technologies segment is \$10.5 million for the three months ended March 31, 2021, which includes \$5.2 million of equity in net income, excluding \$1.7 million of amortization of investment in affiliate step-up plus \$3.6 million of joint venture depreciation, amortization and interest.

A reconciliation of net income (loss) from continuing operations to Adjusted EBITDA is as follows:

	Three months ended March 31,			
		2022		2021
		(in m	illions)	
Reconciliation of net income (loss) from continuing operations to Adjusted EBITDA				
Net income (loss) from continuing operations	\$	7.9	\$	(2.7)
Provision (benefit) for income taxes		5.7		(5.2)
Interest expense, net		8.5		10.5
Depreciation and amortization		19.5		19.5
EBITDA		41.6		22.1
Joint venture depreciation, amortization and interest <sup>(a)</sup>		4.1		3.6
Amortization of investment in affiliate step-up <sup>(b)</sup>		1.6		1.7
Net loss on asset disposals <sup>(c)</sup>		0.1		0.8
Foreign currency exchange loss <sup>(d)</sup>		0.6		5.1
LIFO expense (benefit) <sup>(e)</sup>		0.2		(0.3)
Transaction and other related costs <sup>(f)</sup>		4.3		0.5
Equity-based compensation		7.3		6.3
Restructuring, integration and business optimization expenses <sup>(g)</sup>		0.4		2.3
Defined benefit pension plan benefit <sup>(h)</sup>		(0.6)		(0.6)
Other <sup>(i)</sup>		(0.4)		0.8
Adjusted EBITDA	\$	59.2	\$	42.3

We use Adjusted EBITDA as a performance measure to evaluate our financial results. Because our Catalyst Technologies segment includes our 50% interest in the Zeolyst Joint Venture, we include an adjustment for our 50% proportionate share of depreciation, amortization and interest expense of the Zeolyst Joint Venture.

Represents the amortization of the fair value adjustments associated with the equity affiliate investment in the Zeolyst Joint Venture as a result of the combination of the businesses of PQ Holdings Inc. and Eco Services Operations LLC in May 2016. We determined the fair value of the equity affiliate investment and the fair value step-up was then attributed to the underlying assets of the Zeolyst Joint Venture. Amortization is primarily related to the fair value adjustments associated with fixed assets and intangible assets, including customer relationships and technical know-how.

<sup>(</sup>c) When asset disposals occur, we remove the impact of net gain/loss of the disposed asset because such impact primarily reflects the non-cash write-off of long-lived assets no longer in use.

<sup>(</sup>d) Reflects the exclusion of the foreign currency transaction gains and losses in the statements of income, primarily related to the non-permanent intercompany debt denominated in local currency translated to U.S. dollars.

<sup>(</sup>e) Represents non-cash adjustments to the Company's LIFO reserves for certain inventories in the U.S. that are valued using the LIFO method, which we believe provides a means of comparison to other companies that may not use the same basis of accounting for inventories.

<sup>(</sup>f) Relates to certain transaction costs, including debt financing, due diligence and other costs related to transactions that are completed, pending or abandoned, that we believe are not representative of our ongoing business operations.

<sup>(</sup>g) Includes the impact of restructuring, integration and business optimization expenses which are incremental costs that are not representative of our ongoing business operations.

<sup>(</sup>h) Represents adjustments for defined benefit pension plan (benefit) costs in our statements of income. All of our defined benefit pension plan obligations are under defined benefit pension plans that are frozen. As such, we do not view such income or expenses as core to our ongoing business operations.

Other costs consist of certain expenses that are not core to our ongoing business operations, including environmental remediation-related costs, capital and franchise taxes. Included in this line-item are rounding discrepancies that may arise from rounding from dollars (in thousands) to dollars (in millions).

#### Adjusted Net Income

Summarized adjusted net income information is shown below in the following table:

					Thr	ee months e	nded	March 31,				
	2022				2021							
	1	Pre-tax		x expense benefit)	A	After-tax	]	Pre-tax		x expense benefit)	A	fter-tax
						(in mi	llions	)				
Reconciliation of net income (loss) from continuing operations to Adjusted Net Income <sup>(1)(2)</sup>												
Net income (loss) attributable to Ecovyst Inc.	\$	13.6	\$	5.7	\$	7.9	\$	(7.9)	\$	(5.2)	\$	(2.7)
Amortization of investment in affiliate step-up <sup>(b)</sup>		1.6		0.4		1.2		1.7		0.6		1.1
Net loss on asset disposals(c)		0.1		_		0.1		0.8		0.2		0.6

Restructuring, integration and business optimization expenses <sup>(g)</sup>		0.4		0.1		0.3		2.3		0.7		1.6
Defined benefit pension plan benefit <sup>(h)</sup>		(0.6)		(0.2)		(0.4)		(0.6)		(0.2)		(0.4)
Other <sup>(i)</sup>		(0.4)		(0.1)		(0.3)		0.8		0.4		0.4
Adjusted Net Income, including Intraperiod allocation	\$	27.1	\$	6.8	\$	20.3	\$	8.7	\$	(0.3)	\$	9.0
Intraperiod allocation for restating discontinued operations <sup>(3)</sup>		_		_		_		_		2.9		(2.9)
Adjusted Net Income	\$	27.1	\$	6.8	\$	20.3	\$	8.7	\$	2.6	\$	6.1

We define adjusted net income as net income attributable to Ecovyst adjusted for non-operating income or expense and the impact of certain non-cash or other items that are included in net income that we do not consider indicative of our ongoing operating performance. Adjusted net income is presented as a key performance indicator as we believe it will enhance a prospective investor's understanding of our results of operations and financial condition. Adjusted net income may not be comparable with net income or adjusted net income as defined by other companies.

<sup>(2)</sup> Refer to the Adjusted EBITDA notes above for more information with respect to each adjustment.

Due to the sale of the Performance Chemicals business, the tax rates used to value deferred tax assets ("DTAs") and deferred tax liabilities ("DTLs") needs to be adjusted. Given it is a direct result of the sale of discontinued operations and the need to adjust the tax rates arose because of discontinued operations, the impact of revaluing the reporting entity's DTAs and DTLs are reflected in continuing operations.

<sup>(4)</sup> Includes tax adjustments for the shortfall in stock compensation.

The adjustments to net income attributable to Ecovyst Inc. are shown net of applicable tax rates of 24.7% and 28.8% for the three months ended March 31, 2022 and 2021, respectively, except for the foreign currency exchange loss, equity-based compensation, transactions and other related costs, and discrete impacts of the divestiture of the Performance Chemicals business.

#### Financial Condition, Liquidity and Capital Resources

Our primary sources of liquidity consist of cash flows from operations, existing cash balances as well as funds available under our asset based lending revolving credit facility. We expect that ongoing requirements for debt service and capital expenditures will be funded from these sources of funds. Our primary liquidity requirements include funding working capital requirements (primarily inventory and accounts receivable, net of accounts payable and other accrued liabilities), debt service requirements and capital expenditures. Our capital expenditures include both maintenance of business, which include spending on maintenance and health, safety and environmental initiatives as well as growth, which includes spending to drive organic sales growth and cost savings initiatives.

We believe that our existing cash, cash equivalents and cash flows from operations, combined with availability under our asset based lending revolving credit facility, will be sufficient to meet our presently anticipated future cash needs for at least the next twelve months. We may also pursue strategic acquisition or divestiture opportunities, which may impact our future cash requirements. We may, from time to time, increase borrowings under our asset based lending revolving credit facility to meet our future cash needs. As of March 31, 2022, we had cash and cash equivalents of \$129.7 million and availability of \$76.8 million under our asset based lending revolving credit facility, after giving effect to \$13.4 million of outstanding letters of credit, for a total available liquidity of \$206.5 million. We did not have any revolving credit facility borrowings as of March 31, 2022, we were in compliance with all covenants under our debt agreements.

We held an immaterial balance of cash and cash equivalents in foreign jurisdictions as of March 31, 2022. We continue to repatriate cash held outside of the United States from certain foreign subsidiaries in order to meet domestic liquidity needs. Depending on domestic and foreign cash balances, we have certain flexibility to repatriate funds in order to meet those needs. Specifically, we have an intercompany loan structure in place with foreign subsidiaries that allows us to repatriate foreign cash in a tax efficient manner from those subsidiaries. Repatriation of foreign cash is generally not subject to U.S. federal income taxes at the time of cash distribution. However, foreign earnings may still be taxed for state income tax purposes, as well as subject to certain foreign withholding tax obligations, when cash amounts are distributed back to the U.S.

Our liquidity requirements include interest payments related to our debt structure. As reported, our cash interest paid for the three months ended March 31, 2022 and 2021 was approximately \$8.4 million and \$17.8 million, respectively. Before any impact of hedges, a one percent change in assumed interest rates for our variable interest credit facilities would have an annual impact of approximately \$8.9 million on interest expense. We hedge the interest rate fluctuations on debt obligations through interest rate cap agreements. As of March 31, 2022, we had interest rate caps on \$500.0 million of notional variable-rate debt with a cap rate of 0.84% through July 2022, \$400.0 million of notional variable-rate debt with a cap rate of 1.00% through August 2023, \$250.0 million of notional variable-rate debt with a cap rate of 1.00% through October 2024, and \$250.0 million of notional variable-rate debt with a cap rate of 1.00% through October 2025.

The Company's off-balance sheet arrangements include \$13.4 million of outstanding letters of credit on our ABL Facility as of March 31, 2022.

Net cash used in financing activities, continuing operations	\$	(2.6) \$	(1.5)		

The following discussions related to our cash flows are presented on a continuing operations basis, which excludes the cash flows from our Performance Chemicals business accounted for as discontinued operations during the three months ended March 31, 2021.

Net cash provided by operating activities was \$6.4 million for the three months ended March 31, 2022, compared to \$16.5 million provided for the three months ended March 31, 2021. Cash generated by operating activities, other than changes in working capital, was higher during the three months ended March 31, 2022 by \$26.3 million compared to the same period in the prior year. The change in working capital during the three months ended March 31, 2022 was unfavorable compared to the three months ended March 31, 2021. Cash used to fund working capital was \$40.7 million and \$4.3 million for the three months ended March 31, 2022 and 2021, respectively.

The increase in cash generated by operating activities, other than changes in working capital, was higher by \$26.3 million as compared to the prior year period primarily due to an increase in operating profit and an increase in dividends received from affiliated companies.

The decrease in cash from working capital of \$36.4 million as compared to the prior year was primarily due to unfavorable changes in accounts receivable, inventories, prepaid and other current assets, and accrued liabilities which were partially offset by favorable changes in accounts payable.

The unfavorable change in accounts receivable was driven by the timing of sales. The unfavorable change in prepaid and other current assets primarily relates to the timing of non-trade receivables from related parties and the timing of insurance prepayments. The increase of cash used by inventory was due to the inflation costs on raw materials and finished goods, where as cash provided in prior period was due to the timing of sales orders and inventory build. The favorable change in accounts payable is due to the timing of vendor payments as well as lower capital spending. The unfavorable change in accrued liabilities relates to changes in various accruals.

Net cash used in investing activities was \$14.4 million for the three months ended March 31, 2022, compared to cash used of \$54.6 million during the same period in 2021. Cash used in investing activities consisted of utilizing \$10.8 million and \$12.6 million to fund capital expenditures during the three months ended March 31, 2022 and 2021, respectively. During the three months ended March 31, 2021, we acquired Chem32, LLC for \$42.0 million.

Net cash used in financing activities was \$2.6 million for the three months ended March 31, 2022, compared to net cash used of \$1.5 million during the same period in 2021. Net cash used in financing activities was primarily driven by \$2.3 of debt repayment charges for the three months ended March 31, 2022.

## Debt

Total debt		893.2		895.5
Original issue discount		(8.4)		(8.8)
Deferred financing costs		(4.7)		(4.9)
Total debt, net of original issue discount and deferred financing costs		880.1		881.8
Less: current portion		(9.0)		(9.0)
Total long-term debt, excluding current portion	\$	871.1	\$	872.8

As of March 31, 2022, our total debt was \$893.2 million, excluding the original issue discount of \$8.4 million and deferred financing fees of \$4.7 million for our senior secured credit facilities. Our net debt as of March 31, 2022 was \$763.5 million, including cash and cash equivalents of \$129.7 million. We may seek, subject to market conditions and other factors, opportunities to repurchase, refinance or otherwise reprice our debt.

#### Capital Expenditures

Maintenance capital expenditures include spending on maintenance of business, health, safety and environmental initiatives. Growth capital expenditures include spending to drive organic sales growth and cost savings initiatives. These capital expenditures represent our "book" capital expenditures for which the company has recorded, but not necessarily paid for the capital expenditures.

		Three months ended March 31,			
	2	2022		2021	
		(in m	illions)		
Maintenance capital expenditures	\$	7.0	\$	9.2	
Growth capital expenditures		2.1		2.6	
Total capital expenditures	\$	9.1	\$	11.8	

Capital expenditures remained at a level sufficient for required maintenance and certain expansion growth initiatives during these periods. Maintenance capital expenditures were lower in the three months ended March 31, 2022 compared to the three months ended March 31, 2021 due to lower turnaround expenditures. Growth capital expenditures were lower in the three months ended March 31, 2022 compared to the three months ended March 31, 2021, due to the completion of several expansion projects in 2021.

#### Table of Contents

#### **Critical Accounting Policies and Estimates**

We prepare our condensed consolidated financial statements in conformity with GAAP and our significant accounting policies are described in Note 2 to our audited consolidated financial statements included in our Annual Report on Form 10-K. The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect reported amounts and related disclosures. We base our estimates and judgments on historical experience and other relevant factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We evaluate our critical accounting estimates, assumptions and judgments on an ongoing basis.

There has been no material change in our critical accounting policies and use of estimates from those described in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in our Annual Report on Form 10-K.

#### **Accounting Standards Not Yet Adopted**

See Note 2 to our unaudited condensed consolidated financial statements for a discussion of recently issued accounting standards and their effect on us.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our major market risk exposure is potential losses arising from changing rates and prices regarding foreign currency exchange rate risk, interest rate risk, commodity price risk and credit risk. The audit committee of our board of directors regularly reviews foreign exchange, interest rate and commodity hedging activity and monitors compliance with our hedging policy. We do not use financial instruments for speculative purposes, and we limit our hedging activity to the underlying economic exposure.

There have been no material changes in the foreign exchange risk, interest rate risk, commodity risk or credit risk discussed in Item 7A., "Quantitative and Qualitative Disclosures about Market Risk," included in our Annual Report on Form 10-K.

#### ITEM 4. CONTROLS AND PROCEDURES.

#### **Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of March 31, 2022, the end of the period covered by this Quarterly Report on Form 10-Q.

The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act"), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at a reasonable assurance level.

### Changes in Internal Control Over Financial Reporting

No changes in our internal control over financial reporting occurred during the quarter ended March 31, 2022 that materially affected, or which are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II—OTHER INFORMATION

#### ITEM 1. LEGAL PROCEEDINGS.

From time to time we may be subject to various legal claims and proceedings incidental to the normal conduct of business, relating to such matters as personal injury, product liability and warranty claims, waste disposal practices, release of chemicals into the environment and other matters that may arise in the ordinary course of our business. We currently believe that there is no litigation pending that is likely to have a material adverse effect on our business. Regardless of the outcome, legal proceedings can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

#### ITEM 1A. RISK FACTORS.

"Item 1A, Risk Factors" in our Annual Report on Form 10-K includes a discussion of our risk factors. The information presented below updates, and should be read in conjunction with, the risk factors disclosed in our Annual Report on Form 10-K. The effects of the events and circumstances described in the following risk factor may have the additional effect of heightening many of the risks noted in our Annual Report on Form 10-K. Except as presented below, there have been no material changes from the risk factors described in our Annual Report on Form 10-K.

Our international operations require us to comply with anti-corruption laws, economic sanctions, export controls and similar laws and regulations of the U.S. government and various international jurisdictions in which we do business.

Doing business on a worldwide basis requires us and our subsidiaries to comply with the laws and regulations of the U.S. government and various international jurisdictions, and our failure to successfully comply with these laws and regulations may restrict our operations, trade practices, investment decisions and partnering activities and may expose us to liabilities. Such laws and regulations apply to companies, individual directors, officers, employees and agents.

In particular, our international operations are subject to U.S. and foreign anti-corruption laws and regulations, such as the Foreign Corrupt Practices Act ("FCPA") and the U.K. Bribery Act. For example, the FCPA prohibits us from providing anything of value to foreign officials for the purposes of influencing official decisions or obtaining or retaining business or otherwise obtaining favorable treatment, and requires us to maintain adequate record-keeping and internal accounting practices to accurately reflect our transactions. As part of our business, we may deal with state-owned business enterprises, the employees and representatives of which may be considered foreign officials for purposes of the FCPA. In addition, some of the international locations into which we sell our products lack a developed legal system and have elevated levels of corruption. As a result, we are exposed to corruption-related risk.

In addition, we are subject to applicable economic sanctions, export controls, and similar laws and regulations imposed by the U.S. government and other countries. These laws and regulations may restrict our business practices, or the counterparties or regions with which we can trade. In addition, these laws and regulations are subject to frequent change, and such changes may require us to adjust our business practices, including by ceasing business activities in newly sanctioned countries or regions or with newly sanctioned entities or individuals, or to modify our compliance program. For example, the current invasion of Ukraine by Russia and the related sanctions, export controls or other actions that have been or may be initiated by nations—including the U.S., the European Union, the United Kingdom, and Russia—could disrupt or otherwise adversely impact our customers in those countries, as well as adversely impact our business or our supply chain, business partners or customers in other countries beyond Ukraine and Russia. Further, violations of these legal requirements are punishable by criminal fines and imprisonment, civil penalties, disgorgement of profits, injunctions, debarment from government contracts, loss of export privileges and other remedial measures.

We have established policies and procedures designed to assist us and our personnel in complying with applicable U.S. and international laws and regulations. These policies and procedures are codified in our Code of Conduct and other various policies. However, there can be no assurance that our policies and procedures will effectively prevent us from violating these laws and regulations in every transaction in which we may engage, and such a violation could subject us to governmental investigations and adversely affect our reputation, business, financial condition and results of operations.

# ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

## Tax Withholdings

The following table contains information about shares of common stock delivered to the Company by employees to satisfy income tax withholding obligations of the employees in connection with the vesting of restricted stock units during the first quarter of 2021.

	Total Number of Shares of Common Stock Purchased	A	werage Price Paid per Share of Common Stock	Total Number of Shares of Common Stock Purchased as Part of Publicly Announced Plan or Programs	Maximum Number (or Dollar Value) of Shares of Common Stock that May Yet Be Purchased Under the Plans or Programs
January 1, 2022—January 31, 2022	23,257	\$	10.26	N/A	N/A
February 1, 2022—February 28, 2022	_	\$	_	N/A	N/A
March 1, 2022—March 31, 2022	8,801	\$	10.63	N/A	N/A
Total	32,058

# CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

#### I, Kurt J. Bitting, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Ecovyst Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
